

**Application for a change in date of module examination(s) with a different
type of examination from July to September
- possible up to one week before the examination date -**

Surname First name Registration number

Mobile/phone Email

Degree programme

Candidates can only withdraw from module examinations where assessment is not based 100% on a written examination during the registration period. However, these module examinations can be changed from the second examination date (July) to the third examination date (September). This is possible up to one week before the examination date without having to state a reason; the application must be submitted to the Examination Office in writing.

You will then be withdrawn from the examination and automatically registered for the third examination date in the new registration period. Please note that it is not possible to withdraw from the third examination date.

I declare a change in date for the following module examination(s):

	Title of module	Examination number	Examination date
1.			
2.			
3.			
4.			

Place, date
